Product Documentation | User Story Writing | User Research Basics | Product Thinking | Communication & Team Collaboration | Google Docs | Roadmap Basics | Problem Solving

Projects

StudyPilot — Smart Study Assistant Platform

Product Practice Project | 2026

Designed a digital study assistant platform to help students organize study schedules and improve productivity.

Developed a Product Requirements Document (PRD) including problem statement, user personas, and product vision.

Defined core features such as study reminders, progress tracking, and productivity insights.

BrainBattle — Tech Quiz & Learning Game

Product Concept | 2025

Designed a gamified learning platform where users compete through tech-related quizzes and challenges.

Created user flow and scoring mechanics to enhance engagement and retention.

Focused on interactive learning experiences for tech enthusiasts and students.

PowerCouple Go — Relationship Growth App

Product Concept | 2026

Developed a concept for a relationship-focused mobile app encouraging couples to complete growth challenges together.

Defined features including shared goals, communication prompts, and activity tracking to strengthen relationships.

HealthReminder — Personal Health Tracking Tool

Product Concept | 2026

Designed a mobile app concept to help users track medication schedules, hydration, and daily health routines.

Addressed the problem of forgotten medication and inconsistent health habits through reminders and tracking features.

GroceryMate — Smart Grocery Planning App

Product Concept | 2026

Conceptualized a digital grocery assistant to simplify shopping and household food planning.

Defined features such as smart shopping lists, budget tracking, and reminder notifications to improve user convenience.

Work Experience

Junior Product Manager — Homecarbon

January, 2026

Supported product documentation and idea discussions.

Participated in collaboration activities within the product team.

Learned product workflows and coordination processes.
